

SHOREBIRDS of Greater Adelaide

From pocket sized Siberian migrants to Mongolians with foot-long beaks, the beaches and wetlands around Adelaide become home to some of the worlds most amazing migrants during the summer months.

Come join us as we take a look at the lives of these travelling birds as well as the Aussie residents who are so tied to the beach that they lay their eggs straight onto the sand!

WORKSHOPS

● SUNDAY 22 January 2012- St Kilda. 2:30- 5:00pm

A general look at shorebirds and their habitats within Gulf St Vincent.

Including presentations on:

- Migratory shorebird ecology - the lives of shorebirds from Adelaide to Alaska and what threats they face.
- Identifying the wide range of species (over 30!) regularly occurring in the region.
- Methods for counting birds and how you can contribute to their conservation.

To register or for more information contact Chris Purnell:

Whether you're a first timer or an old hand just brushing up on your skills, this training workshop is a great opportunity to keep up to date on what's happening in the shorebird world and meet other like minded people. This workshop will be followed by a field trip to a site to be named closer to the date.

Events are free. Training materials, light snacks and refreshments will be provided
